SUMMARY

Applied AI engineer and product builder with 5+ years of software experience and 11+ years of business-domain expertise. Built production RAG, OCR, semantic search, automation and microservice systems end-to-end, from architecture and development through deployment and operations.

TECHNICAL SKILLS

AI: LangGraph, LangChain, RAG, semantic search, pgvector, OpenSearch, tool calling, grounded generation
Backend: Python, FastAPI, Node.js, TypeScript, React, REST APIs, microservices
Data & Infra: PostgreSQL, Redis, MariaDB, Docker, CI/CD, monitoring, cloud deployment
Domains: LegalTech, AdTech, MarTech, e-commerce, workflow automation

EXPERIENCE

Independent Applied AI Engineer & Product Builder | CaseEdge / Digitalab

Sep 2025–Present

- Independently built and operated CaseEdge, a production legal-document intelligence platform used by dozens of real users and its first paying customers.
- Owned frontend, backend, RAG, semantic search, OCR, AI integrations, authentication, payments, usage tracking, databases, testing and CI/CD.
- Advised an organization on AI-assisted inventory forecasting and purchase-order automation.

Media Innovation Specialist | K Logic

2025

- Built backend services, automation pipelines and AI-assisted workflows for paid-media analysis and optimization.
- Managed Cellcom's PPC activity end-to-end while translating marketing requirements into measurable technical processes.

AI & Backend Engineer / Solutions Architect and PPC Team Lead | Boroda Kaplan

2022–2025

- Architected and built ROI Me / Budget Watch, an AI advertising ecosystem with 20+ microservices for analysis, monitoring and automated actions.
- Improved entity-matching accuracy from approximately 70% to 95% and reduced AI operating costs by 60–80% through caching and model selection.
- Led technical adoption and training across PPC and AI teams; the platform contributed to performance records across seven of eight accounts.

Full-Stack Developer & PPC Specialist | Full Power

2021–2023

- Built websites, APIs, dashboards and internal tools with payment and third-party integrations.
- Combined software development with live marketing, reporting and operational requirements.

Independent PPC & Marketing Expert

2013–2021

- Operated a digital agency and e-commerce projects and managed advertising budgets of up to ILS 1M.
- Developed deep AdTech and business-process expertise later applied to AI products and automation systems.

EDUCATION

- Machine Learning Specialization — Stanford / DeepLearning.AI
- Applied AI — Hugging Face Transformers
